Instruction Manual
## Keystone Jack - UTP 22-26 AWG
Toolless

1 Strip approximately 40 mm of the cable jacket.

40 mm

**2** Separate the wire into 4 pairs. Cut off the cross filler by diagonal plier.

3 Insert the pairs throught the cap slots according to TIA568A/B wiring instruction label and trim the wires flush.
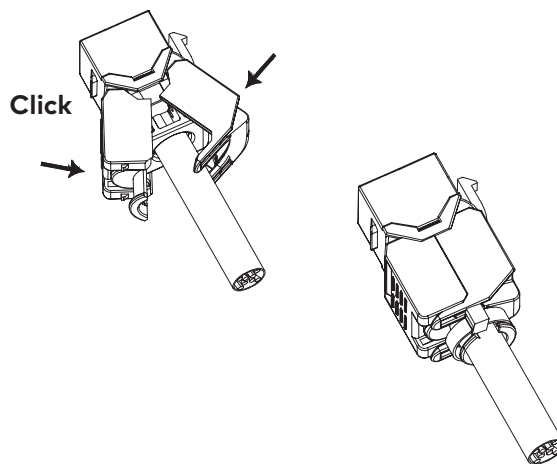

It is strong recommended that the tip of the wire protudes only 0,1 mm.

4 Match the T-shape rib in cap with the corresponding cavity on keystone. Press the cap down onto the keystone and make sure that the wires are deeper than the tiny teeth inside of keystone slots.

5 Close the outer cap by pushing down both sides until it clicks. For more security please tie up the cable tie that is in the packaging.

Click

Done! Good Job!
