

IP CAMERA

DESCRIPTION

The BS-CAM IP Camera with motion detection and night vision, ideal for continuous surveillance in indoor or outdoor environments.

It supports PoE for simple and flexible installation, automatically capturing images when motion is detected, storing them on the server and sending email notifications as configured in Orion Data Center Management (ODCM).

CE

*Brand product BirSens integrated into the ORION solution.

KEY FEATURES

Recording of only relevant events	It records footage only when movement is detected under the specified conditions, thereby avoiding unnecessary recordings.
Reports with images by time intervals	Generation of visual reports with events organised by time intervals using ODCM.
Real-time remote access	Instant access to the live camera feed via the mobile app.
Flexible integration for continuous recording	Camera compatible with NVR systems for continuous recording when required.

PHYSICAL CHARACTERISTICS

Code	82450110001
Shape	Dome
Resolution (px)	1920x1080
Class of Protection	IP67
Operating Voltage	12V / PoE
Night Vision	IR (30 meters)

Product developed and manufactured by BirSens.
barpa offers this solution as an integral part of the ORION solution, ensuring seamless integration and customer support.
